Your local Somfy dealer

### About Somfy

In almost 50 years, Somfy has grown to be the market leader in motorised solutions and a specialist in home automation in and around the house. Somfy is a recognised manufacturer of electric motors, controls and sensors for outdoor awnings, roller shutters, window treatments, curtains, heating, gates, garage doors, and lighting for homes and buildings. Smart Home by Somfy is home automation at its best: manual or automatic operation of electrical appliances no matter where you are. Somfy is active in 59 countries around the world, and Somfy products have proven their reliability with millions of consumers.

### Extensive dealer network

Somfy solutions are provided exclusively through specialised dealers. For addresses, go to the dealer locator on the Somfy website.

A BRAND OF SOMFY GROUP

# Remote control for your garage door

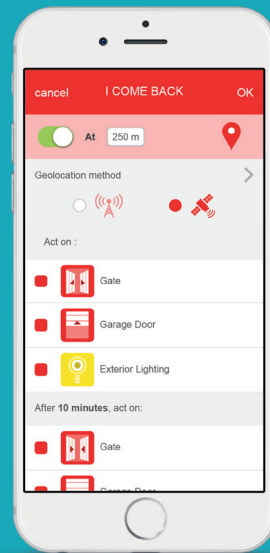

## USING THE CONNEXOON ACCESS APP

### MODE SELECTOR

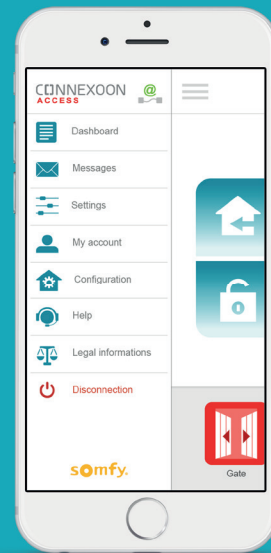

Quick access to each of the app's four 4 modes – I'm arriving, I'm leaving, Open all, Close all – so you can activate your pre-set preferences with a single tap.

Each of these modes can be customised to perform your chosen options for all your Somfy RTS products. e.g. open or close gate, open or close garage door, turn lights on or off.

### GEOLOCATION

Prepare your Somfy motorised garage doors for your arrival home by activating the geolocation function. Set the distance between you and your home when you want your garage door to open, and drive straight in when you get there. Can be operated via your mobile phone network or GPS (satellite).

### EASY TO INSTALL

Simply connect the Connexoon Access RTS to the internet, install the app on your smartphone and you're ready to connect your garage door or gate wirelessly.

# Control your garage door from a distance

Enjoy the convenience of Somfy remote controls

## The right system for your door

Garage doors come in all kinds of types, sizes and weights. And different users have different needs. At Somfy, we look at your individual situation and recommend the right products for you. From the motor and mechanism itself to the accessories which give you ease of use and peace of mind.

Ask your Somfy dealer for a demonstration.

## Every need taken care of

- Systems for tilt doors, sectional doors and sliding doors, up to 15 m<sup>2</sup>
- Obstacle detection system automatically stops door opening or closing when necessary, preventing damage to property and people

- The motor has an integrated LED light to automatically illuminate the entrance
- Smooth and silent operation
- A good choice of setting options
- Soft start & stop extends the life of the garage door and the motor
- Easy to add new remote controls
- Safe radio protocol
- Back up battery
- Many more clever, convenient features

### SOMFY DEXXO COMPACT RTS

The perfect solution for smaller garage doors.

A compact, inexpensive motor for garage doors up to 7m<sup>2</sup>, providing a speed up to 14cm/s.

The Somfy Dexxo Compact motor comes with 2 Keytis RTS remote controls, which can each command 2 different Somfy products, helping you harmonise your Somfy living convenience.

### SOMFY DEXXO OPTIMO RTS

The ideal solution for medium sized garage doors.

A versatile solution for garage doors up to 10 m<sup>2</sup>, providing a speed up to 14cm/s. With convenient features such as partial open option for faster access or ventilation.

The Somfy Dexxo Optimo RTS motor comes with 2 Keytis RTS remote controls, which can each command 2 different Somfy products, helping you harmonise your Somfy living convenience.

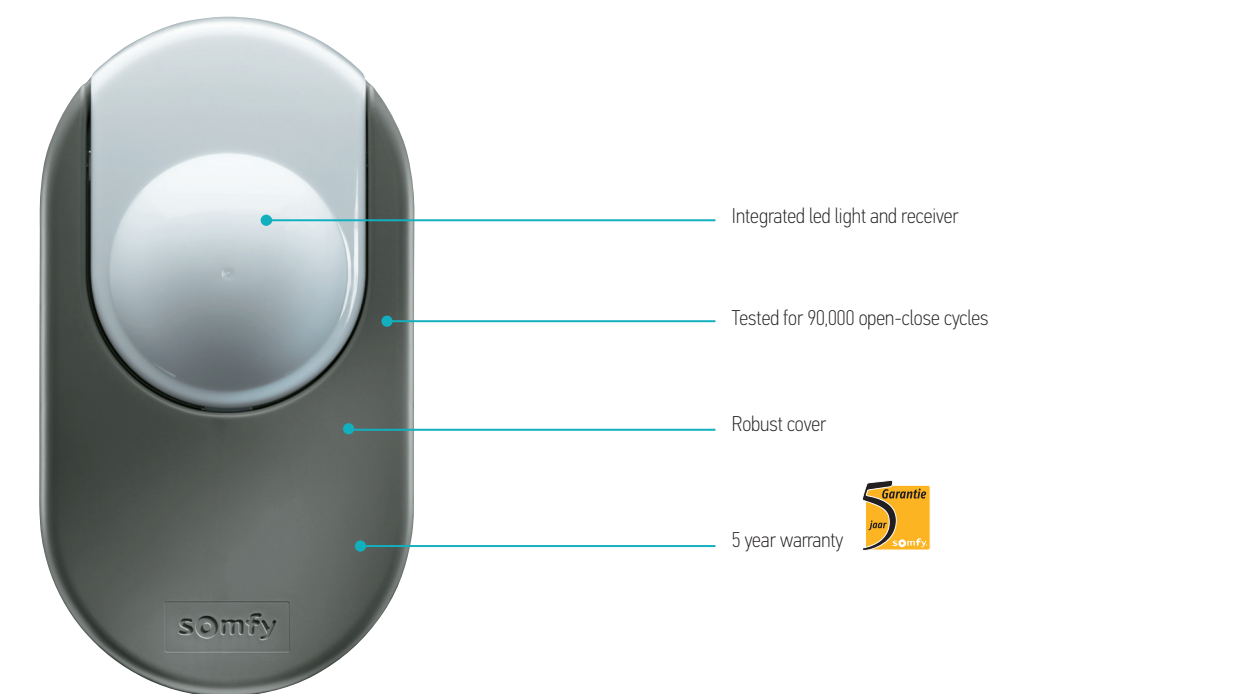

### SOMFY DEXXO PRO 800/1000 RTS

The premium and powerful and fast motorisation for all types of garage doors.

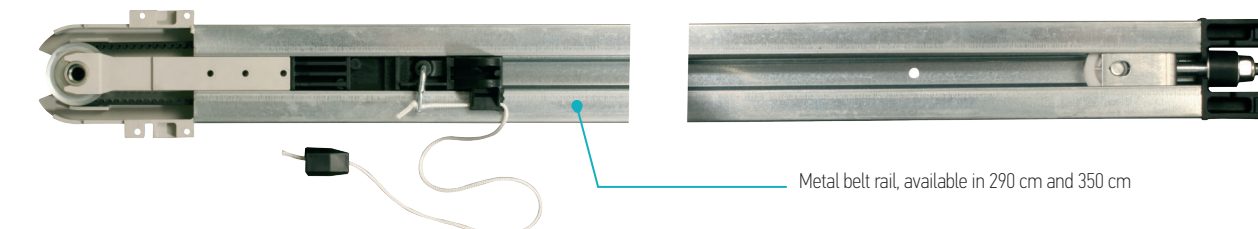

Somfy's top-of-the range system can open garage doors up to 15 m<sup>2</sup>\* providing a speed up to 18cm/s, and offers a range of handy features to accommodate your personal preferences. Smoothly, silently and quickly! The Dexxo Pro range offers the possibility to connect an external light source and an alarm buzzer.

The Somfy Dexxo Pro 800/1000 RTS motor comes with 2 Keygo RTS remote controls, which can each command up to 4 Somfy RTS products, helping you harmonise your Somfy living convenience.

\* Dexxo Pro 800 operates doors up to 10m<sup>2</sup>. Dexxo Pro 1000 operates doors up to 15m<sup>2</sup>.

## Quiet operation, thanks to the Somfy belt transmission

## RTS: Somfy wireless technology

Somfy's radio control system for garage doors is reliable, easy to use and works through up to 2 concrete walls.

**RTS** The RTS radio protocol for Somfy motorised products ensures compatibility with other Somfy RTS products. Over 10 million Somfy products installed throughout the world.

## Controls & accessories

### KeyGo RTS

- Small 4-channel remote control
- Strong metal loop is ideal for attaching to a keyring
- Controls up to 4 Somfy products with up/stop and down/stop commands

### Smoove Origin RTS

- Compatible with all RTS motors and receivers
- Delivered with white frame, which can be replaced with other coloured frames from the Smoove 1 range
- Easy to install

### Alarm buzzer (for Dexxo pro only)

- Deters burglars by emitting a sound when the garage door is forced open

### Metal Keypad RTS

- Activated by entering a personal code
- Suitable for outdoor placement
- Buttons are illuminated upon finger contact
- 1 main code and 4 user codes (per channel)
- Personal codes for multiple users
- Protected by master code
- Robust metal enclosure

### Backup battery

Ensures the garage door can still be opened and closed during a power failure

Guarantees 10 open-close cycles within 24 hours

### Photocells

- Detect any obstacles obstructing opening and closure of the garage door and automatically stop the process if this is the case, thereby preventing personal or material damage

\* Under EN 12453, photocell safety sensors are mandatory for doors which can be remotely controlled via smartphone apps
