

smooove[®]

THE NEW, WIRELESS, WALL-MOUNTED SWITCH RANGE FROM SOMFY

Smoove, wall-mounted control unit

Touch-sensitive technology

The feeling of touch

Smoove's touch-sensitive design follows the current popular trend for innovative touch-sensitive products.

Clear interaction

A discreet audible signal and light indicator.

Whenever you select a movement or action, Smoove emits an audible click and provides visual feedback.

Natural movement

With touch-sensitive technology, Smoove interacts fluidly, intuitively and naturally with the home environment

You only need to lightly touch Smoove to create the movement you want... up, down, stop or "my" favourite position.

SMOOVE TAKES WALL-MOUNTED CONTROL UNITS TO A DIFFERENT LEVEL.
DEVELOP A STRONG ADDED-VALUE OFFER WITH INNOVATIVE TECHNOLOGY,
AESTHETICS AND FLEXIBILITY.

SUSTAINABLE DESIGN

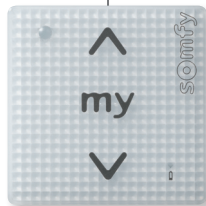

Customers tend to prefer products that will not only blend in with their current décor, but also have a quality build and appearance that will not look out of place in years to come. Smoove has a pure, simple, timeless appearance that fits into all décors.

A SIMPLE CHOICE... WITH A WIDE RANGE OF COMBINATIONS

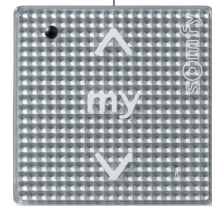

Smoove central modules come in four different finishes...

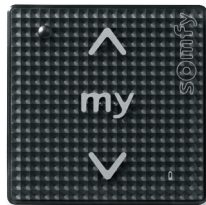

Pure Shine

Silver Shine

Black Shine

Red Light

... available with a wide range of Somfy frame finishes

A WIDE RANGE OF FUNCTIONS

The feeling of movement... for all applications

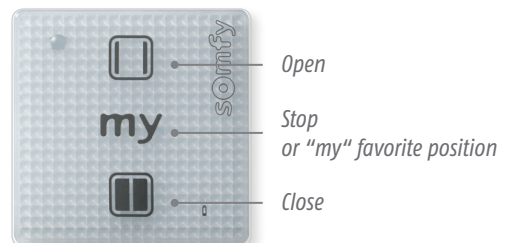

For VERTICAL openings

Interior blinds, patio awnings, roller shutters, vertical garage doors.

For HORIZONTAL openings

Curtains & gates.

BENEFITS FOR YOU

Intelligence in action

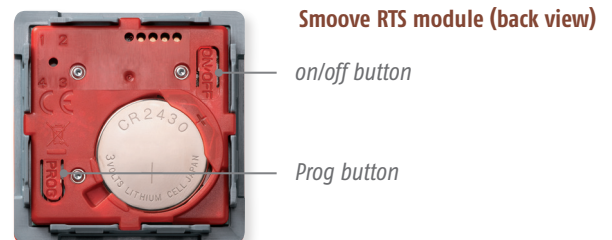

Innovative yet simple

Offer a customised installation

- Range of colours and frames to suit all décors.

Easy installation

- Simple and flexible to install with no wires, no cables and no damage to décor.
- Easy to use, with an audible signal (beep) when the module is switched on via the on/off button.
- Can be mounted on recess boxes in new-build projects.

Your customers will appreciate Smoove's innovative features

New, timeless look

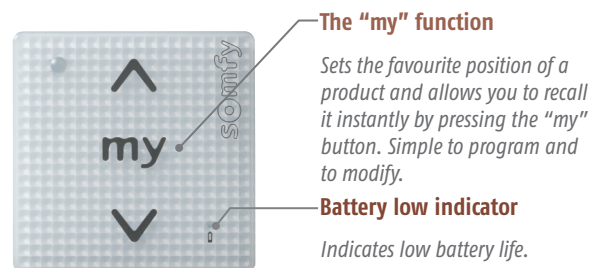

- A choice of colors and materials to suit all styles.

Touch-sensitive, reliable technology

- Intuitive, fluid movement for total control over the home.

Quick, wire-free installation

- Smoove is a wireless control unit that is easy to install absolutely anywhere, without damaging the building décor.

Radio Technology Somfy®

THE SMOOVE RTS RANGE

RTS, the number one radio technology for home openings

RTS technology is compatible with all RTS applications powered by Somfy.

The Smoove RTS range controls all Somfy RTS motors for home openings: interior blinds, electric curtain tracks, patio awnings, roller shutters, garage doors and gates.
